

## ANIMAL ADVICE

Do you love animals as much as Amelia and Sam? Here are some top tips on how you can look after them!

### Caring for your pet

1. Animals need clean water at all times.
2. They need to be fed too – ask your vet what kind of food is best, and how much the animal needs.
3. Some animals, such as dogs, need exercise every day.
4. Animals also need lots of love. You should always be very gentle with your pets and be careful not to do anything that might hurt them.

### Helping wildlife

1. Always ask an adult before you go near any animals you don't know.
2. If you find an animal or bird which is injured or can't move, it is best not to touch it.
3. If you are worried, you can phone an animal charity such as the RSPCA (SSPCA in Scotland) for help.

Advice given by veterinary surgeon, Sarah McGurk.
