

Best Friend Personality Test

You can tell all sorts about your friend's personality by just knowing her name! Use the chart to work out what your friend's special number is and then read what it reveals about her!

1. First write down her name, in full. Include her middle name, if she has one. Use the list to write down the numbers that correspond to the letters in the name. You will need to keep each part of the name separate.
2. Add up the numbers in each part of her name. If the results have two digits, keep adding them together until you get a single number. Do this for each part of the name.
3. Now add each total together (a first name, middle name and surname will give you three numbers to add up) until you are left with just one number.

Example:

M I A	T H O M P S O N
4+4+2	9+6+7+4+3+9+7+2
=10	=47
1+0 = 1	4+7=11
	1+1=2
1 + 2 = 3	Mia is lots of fun to be with

Check the chart and see if it matches your friend:

- | | |
|--|----------------|
| 1 – creative and imaginative | 1 = G, J |
| 2 – friendly and gentle | 2 = A, N, Z, Y |
